

ONLY TWA OFFERS SERVICE LIKE THIS IN AMERICA.

TWA is the only airline that can fly you to 5 major cities in America and then on to 30 other cities across America.

TWA has a computerised service to print your boarding pass in seconds. And as you can take your bags with you onto the plane, you can get on and off, and get where you're going quickly and easily.

TWA is the only airline with a terminal at New York for the exclusive use of its own passengers. So you can clear customs in a matter of minutes.

And, in America, TWA flies the most advanced plane in the world: the wide-bodied L1011. Offering you all the space and comfort of two-across seating. And all the service you'd expect from a big international airline.

Trans World Service from TWA.
